Germans Are Hurled Back In Red' Drive

British In Heavy Slashes On Axis Libyan Forces

LONDON, Jan. 8—(P)—The Red army was reported reliably tonight to have poured powerful reserves of newly-trained troops into its westward drive south of Moscow which already has shoved the Germans halfway back to Smolensk from the high mark of the Nazi invasion.

The new troops were said to have supplemented their own arms with weapons abandoned by the Germans in their forced retreat.

"The Russians still have untouched reserves of manpower which they are tapping as fast as they can be armed," a reliable informant asserted. "The Red army now is on an offensive largely powered by troops trained in the six months since the war started and this training is going on at a rate that more than makes up for battle losses."

Russian advances in frozen Karlia and in the Crimea also were reported, along with the steady Moscow front push which recaptured Meshchovsk, deep in the German center.

Bodies of nearly 400 German officers and men were found in one of the recaptured points, the Soviet information bureau said, and automatic riflemen annihilated almost 200 others in a fight for a village identified only as "P."

Are Breaking Siege

KUBYSHEV, Russia, Jan. 7—(Delayed)—(P)—The Russian defenders of Sevastopol are breaking the German siege of that Black Sea naval base and have launched a new offensive in the campaign to drive the invader out of the Crimea.

Military dispatches said today that Russian troops advancing from the hilly approaches to Sevastopol were crushing the Germans gun positions — now hurriedly converted from offensive to defensive functions — and that despite prevailing storms the Black Sea fleet was cooperating in the operation.

Axle Forces Fall Back

CAIRO, Jan. 8—Axis Libyan forces, failing to give battle at Agedabia, are falling back even farther west along the road to Tripoli under cover of a swirling sand storm and desert-laid mines, but with the British imperials slashing heavily at their rear and flanks.

(British sources in London said that the offensive into Libya was now 600 miles from its starting point along the Egyptian border.

(I) this was an airline distance, it meant that the British had cut around to the rear of the main German-Italian force to somewhere in the vicinity of Misurata, Mediterranean port only 120 miles east of Tripoli, or Kuhn an inland city 310 miles southeast of Tripoli.

(If the longer highway and caravan trail distances were meant,

D. S. Lamm On Defense Group

JEFFERSON CITY, Jan. 8—(P)—Jacob N. Lashly of St. Louis today was named chairman of a statewide law committee for the State Council of Defense.

Other members of the committee, which will handle all legal matters in the State Civilian Defense program, are: Donald Lamm, Sedalia; Ray Bond, Joplin; Ingram D. Hook, Kansas City; W. Wallace Fry, Mexico; and C. M. Mann, Springfield.

Hugh Stephens, defense administrator, urged local councils to "utmost speed" to complete the bus and truck inventory before the deadline of Jan. 31. Ninety percent of the 183,000 Missouri bus and truck owners have responded to the questionnaires.

Three Runs By Fire Companies

The fire companies made three runs this morning, the first at 10:30 o'clock to the city scale house, 209 South Kentucky avenue. An overheated stove pipe set fire to the ceiling of the small building doing approximately \$5 damage.

The building is owned by the City of Sedalia.

Two motor vehicles, one a truck and the other a sedan back-fired and caused fire. The first was at 7:52 o'clock to 1326 East Ninth when a truck owned by E. Cooper was burning. About \$20 damage resulted.

The second was at 9:16 o'clock to 1617 East Sixth street, where a sedan had caught fire. \$10 damage resulted. The car is owned by Alvin Kidwell.

Marriage License Issued

Leonard E. Swope, Smithton and Margie M. Calvin, Hughesville.

Lieut. Brown Is Among Missing

Lieutenant William Brown, 25 year old son of Mr. and Mrs. Ira W. Brown, of 801 North Fifth Ottumwa, Iowa, formerly of Sedalia, is missing in action in the Philippines, according to word received by his parents, from the government.

A letter from Mrs. Brown, to Mrs. M. T. Slane in this city, conveyed the news to friends here. Mrs. Brown was formerly Miss Ruth Lovitt.

Lieutenant Brown was in the Naval Air Corps. He was at home for a visit with his parents last summer, then sailed for the Philippines. Word was received from him Christmas, so it is believed he must have been found missing since that time.

The young man has a brother, Sam Brown, representing the Canadian government in the priority division, and is located in Washington, D. C., and a sister, Miss Dorothy Brown, a nurse at Johns Hopkins hospital, Baltimore, Md.

Public Aid To Over Third Of State's Aged

Per Cent Range Is From 13 to 67.9 In Various Counties

ST. LOUIS, Jan. 8—(P)—A county-by-county study of the number of eligible persons receiving state old-age pensions disclosed a wide variance today from 13 per cent in populous St. Louis county to 67.9 per cent in little Ripley county.

For the state as a whole, public assistance is going to 36 per cent of the residents 65 years of age and over, the Governmental Research Institute, private fact-finding organization, reported in its tabulation.

In addition to Ripley county, seven others are above the 60 per cent mark. They are: Dallas, 65.3 per cent; Ozark, 64.7; Carter, 64; McDonald, 62.5; Washington, 62.4; Oregon, 61.1, and Butler, 60.8 per cent.

Next to St. Louis county on the lower extreme of the percentage list are St. Louis city, 21.3 per cent, and St. Charles county, 23.5. The city and the two counties have 25 per cent of the state's oldsters but only 14 per cent of the total number of recipients of old-age assistance.

Figures On Large Counties

The figures for other large counties include: Boone, 39.9 per cent; Buchanan, 37.4; Cape Girardeau, 28.6; Clay, 35.6; Cole, 25.2; Cooper, 35.5; Dunklin, 48.2; Franklin, 28.7; Greene, 39.4; Jasper, 31.3; Marion, 38.6; Nodaway, 40.7; Pettis, 45.7; Pike, 37.2, and Randolph 48.1.

In all, there are 31 counties, 29 of them south of the Missouri river, in which more than one-half of the aged are on the pension rolls. The two north of the river are Sullivan county, 53.2 per cent, and Ray county, 51.4 per cent.

Release of the census bureau of population data by age groups in Missouri made the analysis possible. The census figures are for April 1, 1940. The number of pensioners is from the state Social Security Commission for January, 1942.

Container For Old Auto Tags Placed

The license container, provided by the license collection committee of the County Council of Defense, Guy T. Callender, chairman, has been placed in front of the doughboy statue, on the west side of the court house.

In it citizens are asked to drop their old automobile license plates and they will then be sold for junk, and converted into some defense materials. The proceeds from the sale will be used to help finance the civilian defense program in Sedalia.

Thirty Mile Hike At 16 Below To Claim Bride

"It was 16 degrees below zero and snowing, 62 years ago December 24, at Sedalia, Mo." states the Los Angeles Evening Herald and Express, of that date. It continues with the following article:

"The goose-grease was solid, almost brittle, but 24-year-old James T. Mayfield, school teacher of the area, wasn't thinking about the snow and the cold but about greasing his boots for the 30-mile tramp ahead. His bride-to-be would be waiting for him with the parson at 8 p. m. and the drifts might be high."

"Hurriedly dressing, James Mayfield shoved open his cabin door to the wintry blasts and headed down the 30-mile stretch at the end of which awaited his prize pupil, sweetheart and wife-to-be, Lettie."

"Sounds like fiction? It's fact. So insists James and Lettie, 86 and 80 years, respectively, as they wait for 8 o'clock tonight and the arrival of five of their

Some Salient Points Given On Tire Ration

Answers Given On Queries Made To Secure Tires

Elsworth Green, Jr., chairman of the Pettis County Tire Rationing Board, has received the following list of interpretations of the regulations issued in connection with the tire and tube rationing from the office of price administration. (The small letters in parenthesis are guides to the particular parts of the sections of the regulations referred to.)

Section 101 (Definitions)

(f) Q. Are seconds of new tires or tubes "new" tires or tubes?

Answer Yes.

(m) Q. Are bicycle tires within the scope of the rationing regulations?

A. No.

Section 401. (Eligibility to purchase or transfer new tires or tubes.)

(a) Q. Can an interstate com-

mon carrier which has delivered to, and deposited with various tire stations along its route a supply of its own tires bearing its own brand to be used to service its own trucks under a service contract with the local agency obtain such tires from the local station?

A. This depends upon whether the release of tires amounts to a delivery or trans-

fer within the contemplation of the order. Opinion reserved for written submission of facts.

(a) Q. Can tires in possession of seller on which full payment has been made be delivered to the purchaser?

A. No.

Down Payment Makes No Difference

(a) Q. Can tires on which a down payment has been made but which are still in the possession of the seller be delivered to the purchaser?

A. No.

(a) Q. Can tires now owned and in possession of a fleet operator be transferred from one of his fleet garages to another? From truck to truck? A. Yes.

(a) Q. Can tire dealers ex-

change white wall tires owned by

(Please Turn to Page 2, Col. 4)

Call Goes To Civilian Pilots

Thousands Asked To Join Army Or Navy Flying Men

WASHINGTON, Jan. 8—(P)—

Thousands of young Americans who learned to fly in the civilian pilot training program were called upon today to join up with the army or navy air forces.

Saying he acted at the request of the army and navy aviation services, Brig. Gen. Donald H. Connolly, administrator of civil aeronautics, wrote to every graduate of C. P. T. courses:

"Which service you enter is a matter of your choice. This re-

quest is merely that you act upon your pledge, given at the beginning of the C. P. T. course, to apply for air training in the armed forces, if and when needed. Both the army and navy air forces have given notice that more ap-

plicants are needed now."

Charles Stanton, deputy admin-

istrator of civil aeronautics, who will become acting administrator January 15 when General Connolly returns to active duty in the army, said he expected all C. P. T. graduates "to get into the armed forces as combat pilots or instructors, or in whatever capaci-

ty they may use them."

Incomes As Aim

The C. P. T. program, started in the fall of 1939 after a limited experimental trial the previous spring, has graduated approximately 60,000 pilots with 35 to 200 hours flying time. The number will be increased to 70,000 by next July 1.

Stanton said approximately 20,000 of these now are in the army and navy or awaiting call.

Another 8,000 are in civilian aviation, many of them flying instructors; 8,000 are in other industries, and 24,000 still are in college.

Recently C. P. T. graduates have comprised about 30 per cent of those entering army corps classes, and the number of "washouts" has been decidedly small, only about 7 out of 100 failing to complete the army's primary course.

The percentage is much higher for pilots without the benefit of previous CPT training.

Stanton was introduced by the Rev. O. J. Rumpf, program chairman. Rev. Janssen had as his guest the Rev. John Vander Meulen. Ben Robinson's guest was his father, J. B. Robinson of Waverly, Alabama. John Ryan's guest was his daughter, Sandra. In celebration of the arrival of a new daughter, John passed out cigars to the club members.

A certificate of civic merit was presented to Paul Hedderich by the Rev. H. U. Campbell acting on behalf of a secret committee whose identity Hedderich is determined to uncover.

The board of directors will hold their first regular monthly meeting at Williams' Cafe Friday at noon.

Distillers To Produce Alcohol

WASHINGTON, Jan. 8—(P)—

The government today ordered approximately 60 per cent of the nation's distilleries to turn their available facilities into production of industrial alcohol.

(Please Turn to Page 2, Col. 6)

Two Injured In Resort Shooting

JEFFERSON CITY, Jan. 8—(P)—

James Shelton, 32, of Eldon, Mo., and Mrs. Ruby Pletzer, 33, of Mary's Home, Mo., were wounded in a roadside shooting at an Ozark resort south of Eldon, late Wednesday.

Highway Patrolman R. H. Wells said Shelton shot Mrs. Pletzer twice—in a thigh and a shoulder—then shot himself in the chest.

Both were brought to a hospital here, where Shelton's condition was said to be critical. Mrs. Pletzer's wounds were not believed dangerous.

Patrolman Wells said no charges had been filed.

Wells told this story of the shooting:

A car in which Mrs. Pletzer, her 16-year-old daughter and three others were riding stopped at the resort on highway 54 with motor trouble. Shelton, with two other Eldon men, was following in a car driven by Alvin Kehr. When the Pletzer car stopped, Kehr pulled in behind it.

Wells said Shelton leaped out, ran to the other car and shot Mrs. Pletzer twice with a .32 caliber pistol, then turned the gun on himself.

Wells said he did not know the motive for the shooting.

Books Desired To Send To Camps

An appeal is made for books and current magazines to be sent to the camps for the soldiers, by the Sedalia Chamber of Commerce.

Recreation rooms are provided at the camps, but there is need of books, interesting reading material that will entertain, and educate the soldiers. Any such books brought to the Chamber of Commerce will be forwarded to the camps.

"We just fussed and fought with one another and then made up." She grinned. "But he's been a good husband. He doesn't smoke or drink or chew, and that's something nowadays."

"James is tall, white-haired, white-moustached, Lettie is small and slight. Typical of the Mayfields life together was his remark:

"I didn't dare give her a lickin' when she was my pupil, so I married her."

"Life for the Mayfields has been one of fun. That's why their marriage has lasted for so many years. Mrs. Mayfield explains it in this way:

"We just fussed and fought with one another and then made up."

"She grinned. "But he's been a good husband. He doesn't smoke or drink or chew, and that's something nowadays."

"To which James added: "I never been in jail neither."

(Please Turn to Page 2, Col. 6)

Bothwell Hospital Notes

Ervin Ray 2223 East Broadway, was admitted for medical treatment.

Germans Are Hurled Back In Red' Drive

(Continued From Page One)

It was probable that the British advance was still no farther than the flanks of the retreating axis African corps.

Penetrations of 20 to 40 miles into territory previously held by the enemy were reported south of Agedabia, itself some 300 air-line miles within Libya near the innermost curve of the Gulf of Sirte.

The axis forces had stood for days in the Agedabia region after a fighting retreat from the Ben-gasi region before finally choosing withdrawal as against further battle.

Surging tank attacks developed at their rear.

"Taking advantage of a heavy sand storm which continued severely to restrict visibility the enemy is withdrawing from Agedabia, covered by strong rear-guards," said the general headquarters communiqué.

"Our mobile columns of all arms are moving forward in pursuit over a wide front. Progress, however, has been slow, owing partly to weather conditions and also to the use made by the enemy of extensive mine fields."

British informants declared that the axis hold-out forces in the Halfaya-Salum area were being "closely invested."

Batter Jap Forces

By SPENCER MOOSA

CHUNKING, Jan. 8.—(AP)—The Chinese air force, in one of its rare offensive operations, was reported authoritatively tonight to have joined in the battle of northern Kunan province, battering fiercely at Japanese troops and supplies.

A Chinese dispatch said a full squadron took part in the attack causing extensive military damage.

A single Chinese plane was reported missing after the oper-

tions—the first by Chinese planes on the North Hunan front. An army spokesman declared that Chinese forces had intercepted several thousand Japanese troops rushed south from their base at Yochow in an effort to relieve some 30,000 comrades still hemmed in after being driven from Changsha.

Start Huge Fires

RANGOON, Burma, Jan. 8.—The RAF left huge fires blazing amid military objectives at Bangkok, capital of Japanese occupied Thailand, in the first British counter blow of a rising fury of air war over the storied road to Mandalay.

Flames were visible for miles after today's raids which a British announcement indicated was in retaliation for repeated Japanese attacks on Rangoon, capital of British Burma.

Thailand is under virtual Japanese occupation.

Accuse Six Of Draft Violation

KANSAS CITY, Jan. 8.—(AP)—Six youths were indicted today by a federal grand jury on the charges of violating the selective service act.

The six were among 48 indictments returned by the jury before it was recessed by Federal Judge Merrill E. Otis, who told the jurors there were "serious matters now under investigation that may require your services very soon."

The court indicated the inquiries might deal with national defense laws.

Indicted on the draft violation charges were James A. Knox, Oxford Lee Grimes, Silas H. Reed and James Gilmore, all of Kansas City, and Richard T. Stoddard, Chillicothe, Mo., and Albert McDaniel of Lawrence county, Mo.

Young Sedilians Enlist In The U. S. Navy

The following young men from this community have recently enlisted in the United States Navy:

Russell Bedsworth Nixon, 320 West Sixth street.

Loyal Westley Stevenson, 1615 East Fifth street.

Robert Paul Mock, Jr., 209 East Seventh street.

Gene Edward Pennington, 206 East Fifth street.

Glen Royce Curtis, 1102 East Third street.

Jessie Parish Bane, Beaman.

them for black wall tires owned by automobile dealers? A. No.

Local Board Cannot Add To Eligibles

Section 404. (Eligible Vehicles)

(a) Q. Have the local boards any discretion in extending the list of eligible classes? A. No.

(a) Q. To whom must you apply for modification in the list? A. Leon Henderson, office of price administration, Washington, D. C.

(a) Q. Is a hearse an eligible vehicle? A. No. In emergencies, ambulances, which are on the eligible list, may be used as hearses.

(a) Q. Is a truck used to deliver coal to both the manufacturers and private consumers entitled to tires? A. Yes.

(a) Q. Does the exemption in section 404 (a) (9) relating to deliveries to ultimate consumer prohibit the delivery of coal to an ultimate consumer? A. No.

(a) Q. Are trucks used to repair telegraph lines eligible vehicles? A. Yes.

(a) Q. Are passenger cars used to repair telegraph lines eligible vehicles? A. No.

(a) Q. Are cars used to render commercial service to telegraph offices eligible vehicles? A. No.

(a) Q. Are cars used to deliver telegrams in rural areas eligible vehicles? A. No.

(a) Q. Are passenger cars used by traveling purchasers of scrap iron entitled to tires? A. No.

Wholesale Grocers Trucks Get Tires

(a) Q. Are wholesale grocers' trucks, used to make deliveries to retailers, eligible vehicles? A. Yes.

(a) Q. Are passenger cars used by wholesale grocers to make deliveries or to solicit sales eligible vehicles? A. No.

(a) Q. Are wholesale grocers' trucks used for sales and for solicitation of sales and for deliveries eligible vehicles? A. Only when the deliveries and solicitations coincide. Trucks cannot be used as salesman's vehicles.

(a) Q. Are trucks used by newspapers to make deliveries of newspapers in wholesale lots

Some Salient Points Given On Tire Rationing

to news dealers eligible vehicles? A. Yes.

(a) Q. Are trucks used for the delivery of single papers to homes in rural areas eligible vehicles? A. No.

(a) Q. Are trucks used for retail deliveries of heavy goods, e. g., furniture, eligible vehicles? A. No.

British Block The Foe In A Flank Effort

(Continued From Page One)

area, 190 miles from Singapore, and inflicting severe losses on the Japanese.

(The Japanese news agency Domei broadcast a report that a terrific battle was under way between the British and Japanese along the border between the Malayan states of Perak and Selangor. Domei said the Japanese tightened an encirclement of British troops resisting from dense lines built along the edge of the jungle.)

The resumption of the present costly drive against Kuala Lumpur was said by British reports to be the result of a sudden bold counter offensive in the area of Kuala Selangor, port city 35 miles northwest of Kuala Lumpur.

It was said that this counter-thrust was "100 per cent effective."

Meanwhile, reliable British sources said there was no confirmation of a Japanese claim that mechanized units supported by planes had advanced along the eastern Malayan coast to the border region of Johore. That would put the invaders within about 90 miles from Singapore.

Negro Stabbed To Death In His Cell

JEFFERSON CITY, Jan. 8.—(AP) Sam Beard, Negro convict from Pemiscot county, was stabbed to death in his state prison cell today.

Loyd Miller, state penal director, said Louis Snipes, 31-year-old Negro convict from St. Louis, stabbed him four times with a knife stolen from a prison kitchen. They had been arguing for several days," Miller said.

Beard, also 31, had served nine years of a 20-year sentence for second degree murder. Snipes was committed a year ago to serve two years for attempted burglary.

On the Russian front the initiative definitely has passed to the Russians beyond the ability of the German high command to pass off its retreat as a planned maneuver.

From the Malaya front, however, Attlee reported a British withdrawal to a point about 60 miles north of Kuala Lumpur, which is 240 miles from Singapore, and said that altogether the defenders of Malaya had been forced to give up 15 airdromes.

He disclosed to the house that General Sir Archibald P. Wavell, as supreme commander of allied forces in the Far East, will direct operations in a vast area including Malaya, the Netherlands East Indies and the Philippines—but excluding Australia, India and Indo-China.

It was explained that United States, Australia and the Netherlands Indies officers will be on General Wavell's staff.

While Lord Addison, labor party leader, declared in the house of lords that Air Chief Marshal Sir Robert Brooke-Popham, recently replaced commander in the Far East, was a "nincompoop," Attlee told commons that commanders on the ground must not be blamed for results in Malaya.

The government, Attlee asserted, accepted "full responsibility."

Dr. May To Speak On 'New Horizons'

Dr. Harry S. May, Rabbi of Temple Beth El, will speak on "New Horizons," at services Friday evening at 8 o'clock. The sermon will deal with the challenging article of Ludwig Leisehohn, famous American-Jewish writer and speaker, published in "Rebirth—A Book of Modern Jewish Thought".

Sunday school will be held Sunday at 10 a. m. under the direction of the rabbi.

Dr. May will speak next Friday evening, Jan. 16, in Des Moines, Iowa, where he will occupy the pupil of Temple B'nai Jeshurun. The topic of his address will be, "The Revolution of the Free—A Historical Paradox."

Warning On Any Profiteering

SPRINGFIELD, Mo., Jan. 8.—(AP)—A sharp warning that it will try to blot profiteering in used automobile tires was issued by the Greene county tire rationing board here today, after it received complaints that some dealers are charging as much as \$25 for worn casings.

Walter Tillman, chairman, said he had written to the state rationing board for information "and recommending that something be done without delay, if it can be done, to stop charging excessive prices."

He acknowledged that the "profiteering" seems to be not so much because dealers are trying to cash in on the emergency as it is desperate bidding on the part of purchasers.

Pallbearers will be the following friends: Leo Sullivan, Charles Simon, Edward Simon, Clarence Clopton, Frank Gross and Fred Lange.

Interment in the Crown Hill cemetery.

Funeral For Mrs. Magaril

The funeral services for Mrs. Sora Henda Magaril, 64, who passed away suddenly at the family home 1918 South Grand avenue early Wednesday morning, were held at Temple Beth El at 2 o'clock this afternoon. Rabbi Harry S. May, officiated.

Pallbearers were friends of the family.

Burial was in the Jewish cemetery on South Grand avenue.

Victory From U S War Entry

(Continued From Page One)

Archibald Southby, a conservative, who declared the Russian and African successes do not "offset the loss of Guam and other islands to Japan."

"It might have been better," he told the house, "if the United States had augmented the defense of those vitally important places rather than expend time and material in creation of the bases which we have leased to them in the West Indies and Newfoundland."

In a broad summarization of the war Attlee told commons:

"The fact that the United States has entered the war on our side has determined the result of the war, but does not offset the advantages that accrue to Japan in the beginning . . ."

He declared that even if Britain had increased her own production to the utmost she could not produce enough arms at present for the Far East to equal the strong military force of Japan.

Apparently in reply to criticism of the seeming inadequacy of British military preparations in the Far East, Attlee said the fact that Britain's Pacific positions were less strongly garrisoned and equipped than might have been wished was not due to lack of foresight.

Rather, he said, it was because it was beyond Britain's resources to be strong everywhere.

Broad View Expressed

But he drew a sharp picture of Britain's utilization of her strength where it was concentrated and gave an optimistic, broad view of the war.

British troops, he declared, already have advanced 600 miles from the starting point of their drive into Libya and are engaging General Erwin Rommel's German forces in "great tank battles."

On the Russian front the "initiative definitely has passed to the Russians beyond the ability of the German high command to pass off its retreat as a planned maneuver."

She was born June 29, 1879, at Warrensburg, the daughter of J. K. and Neddy Davis. She was married April 15, 1905, to Harry S. Seitz who died many years ago, then on September 5, 1917, to Dr. Henry Park who preceded her in death several years ago. Surviving is one son Bruce Seitz of Knob Noster.

She was a member of the Eastern Star.

Funeral services were held this afternoon at the family home at 2:30 o'clock in Knob Noster with the Rev. J. N. Darnell of the Knob Noster Christian church officiating.

Music was furnished by the Rev. Ira H. McClymonds, A. S. Adcock, Mrs. O. W. Peithman and Mrs. Henry Schlusing.

The following served as pall bearers: S. L. Adams, Ernest Adams, Otis Hume, Eddie Peterman, Tom Beatty and L. G. Johns.

Interment was in the Sunset Hill cemetery at Warrensburg.

Cyrus A. Palmer

Cyrus A. Palmer, 64 years old, was buried at his home in Cross Timbers at 7:00 o'clock this morning. He was born in Benton county August 6, 1877, the son of John and Sarah Palmer. For the past twenty years he has made his home in Cross Timbers where he has been a saw mill operator. He was preceded in death by his wife in 1899.

He is survived by one son, Silvan Palmer, Dell Junction, Mo., two daughters, Mrs. C. I. Searcy, Goodman, Mo., Mrs. Glen Lear, Cross Timbers, Mo., his father and mother Mr. and Mrs. John Palmer, Lincoln, Mo., three brothers, Arthur Palmer, Great Bend, Kansas, John Palmer, Green Ridge Mo., Harrison Palmer, Sedalia, Mo.; three sisters, Mrs. Mettie Maricco, Cole Camp, Mo., Mrs. Emma Wening, Lincoln, Mo., and Mrs. Clara Tucker Green Ridge, Mo.

Funeral services will be held at the Christian church in Cross Timbers Sunday afternoon at 2:30 o'clock with the Rev. Mahoney officiating. Friends of the family will serve as pall bearers. Interment will be in the family lot in the Cross Timbers cemetery.

Sunday school will be held Sunday at 10 a. m. under the direction of the rabbi.

Dr. May will speak next Friday evening, Jan. 16, in Des Moines, Iowa, where he will occupy the pupil of Temple B'nai Jeshurun. The topic of his address will be, "The Revolution of the Free—A Historical Paradox."

Edward Roberts

Edward Roberts, 65 years old, 1112 East Third street, passed away at the Bothwell hospital about 1 o'clock this morning.

He was the son of the late Mr. and Mrs. Solomon Roberts.

Surviving him is one son, Raymond Roberts of Rochester, N. Y., and a nephew Charles Cochran, 615 North Stewart avenue, this city.

The body is at the Gillespie Funeral Home. No funeral arrangements have been made.

Funeral of Herman Kirchofer

Funeral services for Herman Kirchofer, 79 years old who passed away Wednesday morning, will be conducted at 2:30 o'clock Friday afternoon at the Gillespie Funeral Home. The Reverend Oscar J. Rumpf, pastor of the Immanuel Evangelical and Reformed church, will officiate.

Pallbearers will be the following friends: Leo Sullivan, Charles Simon, Edward Simon, Clarence Clopton, Frank Gross and Fred Lange.

Interment in the Crown Hill cemetery.

Funeral For Mrs. Magaril

The funeral services for Mrs. Sora Henda Magaril, 64, who passed away suddenly at the family home 1918 South Grand avenue early Wednesday morning, were held at Temple Beth El at 2 o'clock this afternoon. Rabbi Harry S. May, officiated.

Pallbearers were friends of the family.

Burial was in the Jewish cemetery on South Grand avenue.

Society and Clubs

Pan-American unity was splendidly expressed in the Helen G. Steele Music club program given Wednesday afternoon at the Heard Memorial clubhouse.

Festively decorated with Central American shawls, flowers, gourd strings and other appropriate items, the stage presented an appearance of tropical warmth and gaiety.

Miss Mary Lura McCluney, reader for the day, introduced the performers, Mrs. Fred Ross and Miss Mabel DeWitt, pianists; Mrs. John M. Rodeman, violinist; and members of the chorus, Mrs. Percy Metcalfe, Mrs. A. H. Bratten, Mrs. Eugene Helman, Mrs. A. R. Jackson, Mrs. John M. Vander Meulen and Mrs. C. D. Demand.

Relating the accomplishments of the Pan-American union in respect to art, literature and

music, Miss McCluney revealed the growing interest between the northern and southern parts of the western hemisphere in each other's tastes and expressions of esthetics.

Many examples of the self-sufficiency of Latin America in the field of music were told. Folklore plays a great part in the types of songs, lyrics and tonal quality, Miss McCluney said. The Spanish influence is predominant, and the extremely popular conga and tango are examples of the carnival genus of Pan-American music.

The program was "The Conga's Calling," a Cuban folk song presented by the entire group.

Representative of Peru, Brazil and Venezuela, "The Incas' Dance," "Muleinka" and "The Cowboy" were given by the pianists, with Mrs. Demand as soloist in the third number and Mrs. Rodeman playing the violin accompaniment.

"Where is the Moon?" which expresses some of the national spirit of Columbia was sung by Mrs. Metcalfe and Mrs. Demand, and "The Glorious Tango" was presented by Mrs. Bratten and Mrs. Rodeman playing the violin accompaniment.

"Jungle Drums" a throbbing Cuban selection, and "Andalusia," from a Spanish suite, were played at two pianos by Mrs. Ross and Mrs. DeWitt.

Illustrative of the numerous state and sectional dances that offer musical variety in Mexico, "Estrellita" was sung by the chorus followed by "Fiesta," with Mrs. Jackson and Mrs. Helman as principals, and "Senorita" with Mrs. Vander Meulen as soloist, each having choral and piano accompanists.

Two violin solos, a Spanish Dance Tango by J. Aviles and "Coronado," a tango serenade, by Ellis Levy, were presented by Mrs. Rodeman, and a vocal solo, "Poinciana" (song of the tree) composed by Nat Simon in the Latin-American style, was given by Mrs. Metcalfe.

Of all the colorful folk-dances of Cuba, the best known to the outside world is the rhumba, and representative of this the chorus concluded the program with "Capricho," with two pianos and violin accompaniment.

A short business meeting was presided over by Mrs. H. C. Johnson, vice president, preceding the program, and Mrs. Dan Carr gave a review of Federation current events.

Members of the "Eat-and-Run" club met Wednesday afternoon at the home of Paula Pressler, 905 South Carr avenue, and elected new officers.

Named were Margaret Liming, president; Markie Walker, vice president; Elaine Warren, secretary, and Harriet Bertman, treasurer.

Wilmer Thompson left for Washington, D. C., Saturday morning after spending the holidays with his parents, Dr. and Mrs. G. W. Grove and family.

Mr. and Mrs. Osborne Crowley are the parents of a daughter weighing seven pounds born at their home southeast of Warrensburg. They have two other daughters and formerly lived in Knob Noster.

Miss Vivian Chalfant is spending several days this week in Kansas City with Mrs. Ruby Emig.

May Turn 'North Forties' To Dandelions—For Defense

It might seem like stretching your imagination considerably, but a suggestion has been made by American agricultural researchers that farmers in this area might be able to help solve a crude rubber shortage by large scale cultivation of a rubber bearing dandelion plant.

If such is the case, it looks like some of Pettis county farmers might soon be taking their corn out of north forty and planting dandelions . . . for America's defense. Discovered in Russia, the plant known as kok-sagyz is grown there exclusively now. It resembles the yellow-flowered dandelion of the United States and could be produced on American farms almost as easily and prolifically as that of its lawn-mowing cousin, it is said.

The idea of Missouri rubber plantations was announced as the United States' loss of its far eastern crude rubber supply became a reality because of Pacific war developments. Authorities revealed that kok-sagyz is a highly adaptable plant. It can be readily acclimated and can be cultivated in a wide variety of soils. The rubber in the plant is easily utilized in manufacturing, as compared with that of other plants which contain rubber.

Taken From Roots

Roots from which the milky latex juice is derived can be harvested at the end of the first or second year. They yield 150 to 200 pounds of crude rubber per acre. Guayule produces about 300 pounds per acre, but only after four or five years of cultivation. Kok-sagyz develops a maximum yield on highly structural black soil in localities with at least 20 inches of rainfall yearly.

According to officials the Brazilian trees "have not been tapped because the price of rubber is lower than the price needed to

provide an incentive to the natives to blaze the jungle trails to tap the wild rubber trees and bring the rubber to market."

inches of rainfall yearly distributed heavily in April, May, July and September.

The United States which uses the world's rubber supply, will increase synthetic rubber production to about 70,000 long tons next year, according to authorities, far below the normal consumption of nearly a half million tons. Farm researchers said the U. S. undoubtedly could cultivate the dandelion plant and produce crude rubber for considerably less than the 40 to 50 cents a pound production cost for synthetic rubber.

ANOTHER SOURCE SUGGESTED

Another source of rubber has been suggested as a means of helping to reduce the strict regu-

lations on tires in the United States. Wild rubber trees in the Amazon valley were suggested as an emergency source of crude rubber for America. It has been estimated there are about 300,000 wild rubber trees deep in the Brazilian jungles, which might be utilized to replace the sources of supply in the middle east.

Rubber experts have reported that the Amazon valley once was the sole source of crude rubber, the industry there reaching its peak in 1912 with shipments of 45,000 tons. The shipments dwindled to nothing with the de-

velopment of cultivated rubber in Sumatra, Java and Malaya.

The Washington

Merry-go-Round

• by Drew Pearson and Robert S. Allen

WASHINGTON—Many sage remarks still are being quoted in the wake of Winston Churchill, and one of the most significant was made to friends in regard to future allied strategy against Japan.

Asked what the United States and Britain could do to check Japan, Churchill replied:

"The Japanese have been eating all over the table. They have big appetites and for the time being there may be nothing much we can do about it. But sooner or later we shall turn over the table."

This strategy of turning over the table, in other words directing a move at the main islands of Japan themselves, is something which has always been in the books of the war plans experts.

However, the American public may have to reconcile itself to more discouraging news from the south Pacific before allied strength reaches a point where the table can be turned.

General MacArthur's situation in the Philippines has been compared with that of Aguinaldo, the Filipino guerilla leader, who kept American forces at bay for two years after the Spanish-American war. It has been hoped that MacArthur, like Aguinaldo, could fight in the Philippine jungles for an equal period.

However, Aguinaldo never had to cope with the airplane, and MacArthur does. Airplanes can search every inch of Philippine jungle; and in addition, MacArthur's munitions will not hold out forever.

The situation of Corregidor, island fortress at the mouth of Manila harbor, is better, but even so it is not half as good as the army's original expectation that it could hold out for a year or so. For apparently, the ground-minded general of the War Department did not do very much about protecting Corregidor from the air. It can hold out for some time, but sooner or later we face the prospect of seeing the Stars and Stripes hauled down from the main islands of the Philippines.

Capital Chaff

Secretary of War Stimson has been shaking up some of his generals, and has put General Raymond Lee temporarily in charge of military intelligence. Lee was former U. S. military attache in London and an A-1 officer. Army people hope he stays in charge of the intelligence service... To make more office space in Washington, the Farm Credit Administration is being moved to Chicago... Ex-Ambassador Joe Davies has written a book on his experiences in Russia which should be must reading for every member of Congress. It is a magnificent job... Ex-Ambassador Joseph P. Kennedy is now in Florida writing a book on his experiences at the Court of St. James. If Joe is frank—and he usually is—the book ought to be a best seller... Fifty percent of our vitamin A is being sent to England. This, together with the shortage of fish livers and oils from Norway and Japan, is causing a shortage of vitamins in the U. S. A.

WLW Iceland

The largest standard-wave broadcasting apparatus in the U. S. A.—owned by WLW Cincinnati—may be set up in Iceland to drown out Hitler's rasping broadcasts to the German people.

For many years WLW operated a 500,000 watt station in Cincinnati, but was forced by the Federal Communications Commission to reduce to 50,000 watts, which is the maximum for ordinary commercial stations in the U. S. A. Therefore, WLW has now offered its big 500,000 watt set to the government to be established in Iceland. Since Hitler's stations are nowhere near as strong as 500,000 watts, WLW's beams from Iceland could drown out his voice every time he went on the air.

Furthermore, WLW Iceland would not operate on short wave, which the German people are not permitted to hear. It would operate on a standard broadcasting beam and would come in over the ordinary German radio. By turning a button in the station in Iceland, the wave-length could be changed to cut in on any German program.

There is one catch in the proposal, however. WLW Cincinnati wants to make a deal with the government whereby it would be permitted to set up another 500,000 watt station in the United States in return for sending its equipment to Iceland.

NOTE: The 100,000 watt radio station which the Donovan committee is transferring from Schenectady, N. Y., to San Francisco for propa-

ganda broadcasts to Japan is for short wave broadcasts only.

Scrap Iron Went to Japan

It may be that those who let millions of tons of scrap iron go to Japan are not too anxious to advertise our present dearth of scrap, but the real fact is that it is so serious as to cause the shutdown of nine blast furnaces in Youngstown, O., alone.

To meet the shortage, the OPM has been conducting an experimental campaign to collect scrap iron in Erie, Pa., and is launching other campaigns in Boston, Pittsburgh, Bridgeport and Akron. However, the campaign is going very slowly. Chief trouble is that collections are made through the normal scrap iron trade.

Therefore, it looks as if the American public might have to take things in hand. A survey of Butler county, Ohio, shows that every farmer has an average of about 500 pounds of usable scrap iron and rubber rusting or rotting behind his barn. On this basis, the OPM estimates that it should be possible to collect 1,500,000 tons of scrap from American farmers.

Not many people realize the importance which scrap plays in the iron and steel industry. Ordinarily, steel is made fifty percent from ore and fifty percent from scrap iron. But today ordinary supplies of scrap iron are diminished, not only by previous sales to Japan but by the fact that war industries supply no scrap. Many tanks, guns, and military motor trucks are shipped off to Egypt, Malaya or Russia. They never come back. Ordinarily, industry supplies its own scrap iron from junked automobiles, etc. But now there will be fewer automobiles to junk.

So the scrap iron problem is one which will require every farmer and householder to look around behind his barn or in his basement to see what he can spare for war industries.

Goodbye, Lead

You can check off lead as the next strategic material to be put under interdict for civilian use. OPM's banning order will be issued shortly. That will mean the end of lead foil and numerous other items of normal everyday use. One possible exception may be lead for automobile batteries, but even that will be under severe restrictions.

Reason for the ban is inadequacy of domestic supply to meet the increasing need for bullets. War production tables call for a lead consumption of 60,000 tons monthly by June; 100,000 tons monthly by next January. For military reasons, figures on U. S. supply can not be disclosed, but it is below what is needed even with production increases now under way plus imports from Canada, Mexico and other foreign sources. So civilian use will be restricted for the duration.

• So They Say

We will win only if we utilize every one of the mechanical and human resources that are available to us.—Governor Lehman of New York.

The National Revolution has not yet passed from the domain of principle to that of acts.—Marshal Petain.

The most practical measure to lighten the burden of armaments... is not through the abandonment of the use of force but through pooling and organizing the overwhelming forces of the peace-loving peoples... Dr. Hu Shih, Chinese ambassador to the U. S.

The vital need for the future safety of the world is the reduction of Japan to an international status little better than that of Portugal.—Esson M. Gale, Office of Coordinator of Information.

We will fight to the last man.—Francis Sayre, U. S. high commissioner to the Philippines.

Today we in America speak insistently of democracy, but to what extent does it live, to what extent have we realized it in the Central and South American states?—Dr. Lucio Mendez y Nunez, University of Mexico.

There is little probability that any power, federal, state or local, public or private—will long persist unless it renders service to the people of America.—Paul V. McNutt, federal security administrator.

As a nation Germany can never again be trusted with military weapons. — Margaret Bondfield, former British member of Parliament.

The Soviets may, under international law, strike at Japan if and when they so decide, without any prior warning.—Alexander N. Sack, international law authority.

• Looking Backward

• forty years ago.

Fred D. Wilkerson, son of Judge B. G. Wilkerson of Sedalia, has been elected general manager of the Biwabik Iron Mining company, of Minnesota, with headquarters at Cleveland, O. Young Wilkerson entered the employ of the Ohio Steel company in 1895 and remained there until it was absorbed by the National Steel company.

Will Faust, who has been with the street car company for the past three years, has purchased a stock of tobacco and will engage in the manufacture of cigars at 216 South Kentucky avenue within the next week or two.

The retail clerks of the city have decided to give a ball on the evening of February 4 at Liberty park hall, and have appointed as members of the committee on arrangements, F. M. Blaise, Harry Dobel, Harry Barton, J. L. Menke, H. Carter and D. H. Boult.

A force of street-sweepers were put to work this morning cleaning up Ohio street.

The Sedalia, Missouri, Democrat, Thursday Evening, January 8, 1942

Pointers On How To Keep Your Auto In Condition

POINTERS ON—D C 24 Italics
(Editor's Note: This is the second of several daily articles on how to make your automobile last longer.)

By DAVID J. WILKIE
DETROIT, Jan. 8—(Wide World)—Keep your engine oil at the proper level.

Don't try to economize on periodical changes... Have the motor flushed out every time you change oil...

Keep the engine and surrounding areas clean so that your ignition wires do not lie in grease and oil...

Have your carburetor adjustment inspected occasionally... Check your spark plugs and distribution points at least every 10,000 miles... Be sure the routine greasing and oiling job is done by experts...

Finally, don't drive your car any faster than necessary and don't race the motor when it is cold.

These are the more essential recommendations of automotive engineers who would help you keep your car in operation as long as possible with minimum expense for repair. As a general proposition, the engineers tell you the best thing to do with an automobile engine once it comes into your hands is to let it alone, or have essential services performed by trained mechanics.

Parts Better Fitted
In developing the better automobile of the last decade, how-

ever, the engineers have fitted all parts closer, measuring them in millionths of an inch, increasing the need for proper lubrication to combat friction. So the responsibility of keeping your oil supply at the proper level is distinctly your own.

Too much oil in the crank case means fouler plugs; too little means burned out crankshaft bearings; trying to make two changes serve for three may have the same effect as too little oil. The ordinary individual is not qualified to test the viscosity of his engine oil, so the safe procedure is to change it every 1,000 miles.

Contrary to popular impression, spark plugs do not have to be changed every 10,000 miles just because they have been used that long; they should be inspected frequently, however, to be sure the points are clean and properly spaced.

Racing the motor when it is cold is equivalent to running it without oil; warm it up slowly in sub-freezing weather and hold your clutch out at the same time to lessen the load on the pistons and crankshaft.

The recommendations outlined here are essentials; there are numerous other things that can be done, but if these are followed you can reasonably expect to minimize your repair bills and embarrassments that might result from a shortage of replacement parts.

(Tomorrow: Care of tires.)

Extreme Cold Slows The Collection Of Scrap Iron

By WILLIAM FERRIS
CHICAGO, Jan. 8.—(P)—Efforts to bring out an increased supply of scrap metal—essential to the production of steel for armament purposes—have met another obstacle in cold weather, industrial salvage circles said today.

Lack of scrap is creating a serious problem in the war program, according to steel makers, because scrap must be used to manufacture finished steel. Smaller plants particularly, these sources said, are dependent upon a steady and abundant flow.

In the last few days, when it was hoped collecting would increase, the trade has remained quiet. Salvage circles blame this on the cold, saying it has prevented dealers from scouring the countryside for material.

Effects of the shortage were evidenced this week when Great Lakes Steel Corporation, Detroit subsidiary of National Steel Corporation, shut down four of its 16 open hearth furnaces for lack of enough scrap to keep them going.

Concern On Situation
Sharon Steel Corporation, with plants in the Youngstown, Ohio,

district, has announced it expected to shut down an open hearth furnace late this week for the same reason.

The shortage is not confined to the American and Philippine soldiers have established to hold the invaders out of strategic Batan province, the tip of land that is on the western side of Manila bay. It leaves the army an avenue to reach the fortifications of Mariveles on the southern coast Batan and sturdy Corregidor island at the bay's entrance.

Bombs and raking machine gun fire blasted and slashed the front line soldiers, too, the army said in an earlier communiqué, but the defense was as valiant as the attacks were fierce.

To wear down the determined Americans and Filipinos who have braved the worst the Japanese could throw against them in the month-long battle for the islands, the Nipponese concentrated on the unbroken defense rim the soldiers hold just north of Manila bay.

Heavy Fighting Resumed
"Heavy fighting has been resumed along the entire front with the enemy increasing pressure at all points," said the War department's first communiqué of the day.

Again Japanese planes blasted at Corregidor island, the Philippines' Gibraltar, which has taken the month-long battle for the islands, the Nipponese concentrated on the unbroken defense rim the soldiers hold just north of Manila bay.

Still the fighting men of the fortress struck back, hardly given time to rest from one long attack ended until another struck.

Announce Birth Of Son
Mr. and Mrs. Hugh Folk, of Farmington, announce the birth of a son, James Louis, born December 26. Mrs. Folk was formerly Miss Nona Bell Kueker, daughter of Mr. and Mrs. Louis Kueker, 915 West Fourth street.

Raymond Brandt To Give A Radio Talk
Raymond Brandt, of Washington, D. C., news correspondent there for the St. Louis Post-Dispatch, will speak over radio station KSD, at 3:30 o'clock Sunday afternoon, friends in Sedalia have learned.

Mr. Brandt is a former Sedalian son of the late Mr. and Mrs. Jacob Brandt.

Sufferers from those persistent nasty irritating coughs due to colds, bronchitis, influenza find Buckley's brings quick relief. Over 10 million bottles sold. Be sure you get Buckley's CANADIOL Mixture.—Adv.

Opens Up Clogged Bronchial Tubes

Spent a few cents today at Star, McFarland-Robinson or any good drug store for a bottle of Buckley's CANADIOL Mixture (triple acting). Take a couple of sips at bedtime. Feel its instant powerful effects and spread them through head and bronchial tubes. It starts at once to loosen up thick, choking phlegm, soothe raw membranes and make breathing easier.

Sufferers from those persistent nasty irritating coughs due to colds, bronchitis, influenza find Buckley's brings quick relief. Over 10 million bottles sold. Be sure you get Buckley's CANADIOL Mixture.—Adv.

U. S. Troops Use Rivers for Defense

U. S. defenders of Manila have established positions along the rivers of Luzon. Troops in the north fought Jap attacks along the Agno river, in the south along the Tiangon.

try for the production of war materials."

The new committee will be made up equally of labor and industrial leaders and will be headed by an OPM official. Personnel has not been announced. Thomas charged that the power of the new committee was such that labor would have "no effective voice" and that there would be no cooperative pooling of machinery and labor.

Parents of Daughter
Mr. and Mrs. John Ryan, 1407 West Tenth street, are parents of a daughter, born at the Bothwell hospital, Wednesday night.

Mr. Ryan is the Ford automobile dealer in Sedalia.

• Side Glances

"Now wait until you've heard my question before you say yes!"

• This Curious World

ANSWER: In 1644, the English Parliament passed an act forbidding Christmas observance, and some New England colonies adhered to the rule for a time.

Additional Society

Mrs. Walter H. Bohling and daughter, Miss Maurine, of Jefferson City, formerly of Sedalia, have returned to their home in Jefferson City from a visit with Walter Bohling, Jr., who is stationed with the U. S. Navy Reserve in Omaha, Neb.

Enroute home Mrs. Bohling and her daughter were guests at a dinner at the home of Mr. and Mrs. J. F. Downs.

The DeWitt Music club met Tuesday at Miss Mabel DeWitt's. The meeting closed with a musical quiz program.

Salty Waters

The Great Salt Lake is not as salty as the Dead Sea. In the former, the salinity varies from 14 to 23 per cent, while in the latter it varies from 23 to 25 per cent.

FOOD & MARKET PAGE

Watercress Stuffing
(For 15-pound turkey)
One cup butter or drippings, 6

tablespoons diced onion, 1 cup diced celery, 2½ cups finely cut watercress, 7½ cups soft, enriched bread crumbs, 1½ teaspoons salt, ¼ teaspoon black pepper.

Melt butter in a glass saucepan; add onion and celery and cook about 3 to 4 minutes over moderate direct heat. Add watercress and cook about 5 minutes longer. Pour over bread crumbs, mixing all the while. Add salt and pepper. Mix lightly but thoroughly with two forks.

Apple Snow (Serves 4)

Two cups raw grated apple, juice ½ lemon, 2 egg whites stiffly beaten, few grains salt, ½ cup sugar, cinnamon or nutmeg.

Peel and grate apples or put through food chopper, and add lemon juice, mixing well. Add salt to egg whites and beat until stiff. Gradually beat in sugar. Combine apple and meringue mixtures, chill and serve with a dash of spice.

FREE DELIVERY TO YOUR HOME

YOU mustn't hoard food. But it's the part of wisdom in these times to keep an emergency shelf stocked like the one in the photo. There are evaporated milk and coffee for instant serving, dried beef figs, dates, crackers, candy bars and a few bottled fruit juices. The shelf also contains a variety of glassed fruits in wide-mouthed, easy-to-empty jars. This forehanded housewife also keeps a plumber's candle and a supply of safety matches handy, too, as a precaution against gas and electricity being turned off during a blackout.

Bread puddings take on new flavor with the addition of ¼ cup chocolate into it for a favorite teaspoon of ginger and a teaspoon of cinnamon. Chip semi-sweet chocolate into it for a favorite cold weather dessert.

Rice and Sausage Casserole
(Serves 4-6)

Three-quarter pound ling sausage, 2 tablespoons hot water, 1½ cups coarse cracker crumbs, 1½ cups cooked rice, 1½ cups canned tomatoes, 3 tablespoons chopped celery leaves, 1½ tablespoons chopped onion, 1 teaspoon salt, ¼ teaspoon pepper, ¼ cup chopped green pepper, 2 tablespoons butter.

and fry until delicately browned, stirring constantly. Add water. Combine remaining ingredients, mixing lightly. Add sausage. Turn into greased baking dish and dot with butter. Bake in moderate oven (350 degrees) for about 30 minutes.

Lamb Neck Slices
(Serves 4 to 6)

Three pounds neck slices, 1 cup

carrots, 8 large pieces of celery, 8 small onions, salt and pepper.

Brown neck slices in deep, heavy kettle. Add water and seasoning. Cover and allow to simmer for one hour. Add onions, potatoes and carrots. Continue to simmer. Add celery cut in three-inch pieces about fifteen minutes before serving.

BOYS ON LEAVE enjoy mother's cooking. Wise mothers prepare surprise luxuries.

Pineapple Fluffy Cake
One-half cup shortening, ½ teaspoon salt, ½ teaspoon grated lemon rind, 1 egg yolk, 1½ cups sugar, 4 cups sifted cake flour, 3 teaspoons phosphate baking powder, ¾ cup canned unsweetened pineapple juice, ½ cup water, 4 egg whites.

Combine shortening, salt, lemon rind and egg yolk and blend well. Add sugar gradually, creaming until light and fluffy. Sift flour and phosphate baking powder together and add alternately with combined pineapple juice and water to creamed mixture. Fold in stiffly beaten egg whites. Bake in 2 greased 9-inch layer cake pans in moderate oven (350 degrees F.) 30 minutes. Frost with pineapple fluffy frosting.

Apple Sponge Pudding
One envelope plain unflavored gelatin, ¼ cup cold water, 3 eggs, ½ cup boiling water, 1½ cups strained applesauce, unsweetened, ½ cup sugar, ¼ teaspoon salt, ¼ teaspoon cinnamon, 2 tablespoons lemon juice, ¼ teaspoon grated lemon rind.

Beat egg yolks, add boiling water, applesauce, sugar, cinnamon and salt. Cook in double boiler until of custard consistency, stirring constantly. Soften gelatin in cold water and dissolve in hot custard. Add lemon juice and grated rind. Cool, and when mixture begins to thicken, fold in stiffly beaten egg whites. Turn into serving dish or one large bowl. Chill. Serve with plain whipped cream or custard sauce.

Serial Story . . .

Tambay Gold

.... By Samuel Hopkins Adams

Copyright 1941, NEA Service, Inc.

CHAPTER I

THE man at the crossroads gas-
sery came out to the pump.

"Why, it's Mom Baumer," he
said. "Hiya, Mom!"

"Hiya, pal," I said. "Fill her
up."

"Must be five years since I seen
you," he said.

"All of that," I said. "You've
got a good memory."

"Oh, nobody ever forgets you,
Mom," he said.

I guess that's right, too. I'm a
sort of institution on the roads. He
took a gander at my trailer.

"How's the feed trade?" he
asked, being polite.

While he was polishing the
windshield I said, "What's this I
hear about Tambay Plantation?"

"It's right," he said. "Life
among the ruins. Poor relation."

"What sort?"

"Yankee. Keeps herself to her-
self."

"Would she take in a tourist, do
you reckon?"

"Would the White House?" he
said. "Tambay's still Tambay."

"Okay, pal," I said. "But that's
where I bunk tonight. I've got a
particular reason for wanting to
sleep there tonight."

Coming into Tambay Plantation I
rolled along quietly. Opposite

the mansion I dropped the trailer.

Before turning in at the big en-
trance, I switched off my lights.

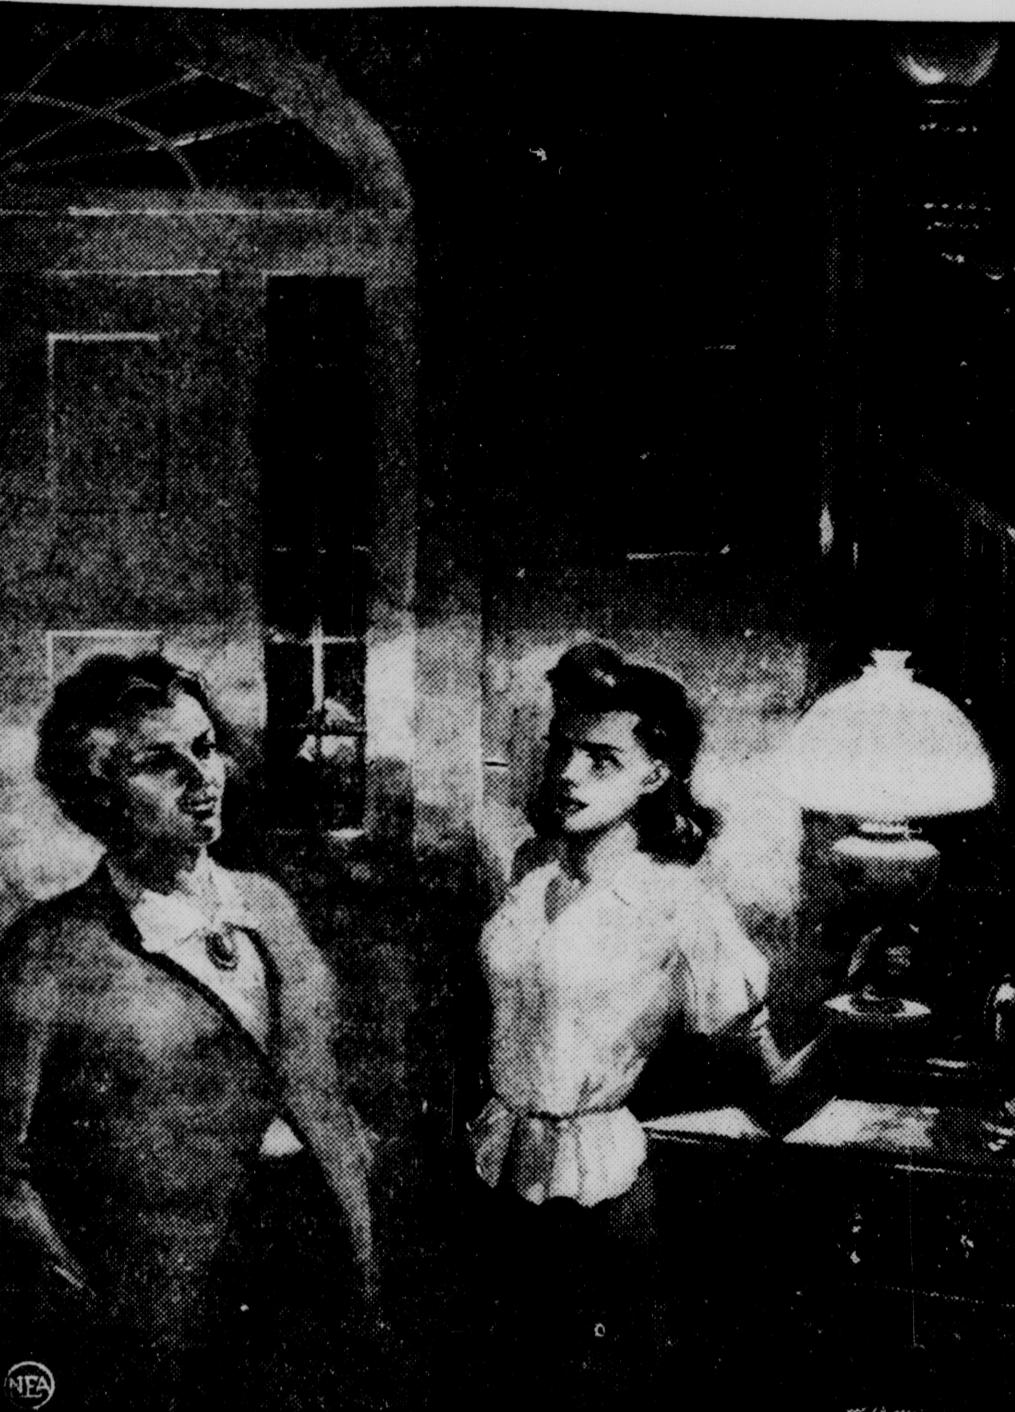

With the rain and the wind, there
wasn't much danger of my being
heard before I was ready. I
got out of the car and hung a
gadget of mine that had been a
good old standby many a time
when I wanted a lodging, on the
gatepost.

Through the untended shrub-
bery between the live oaks I could
make out Tambay Mansion. It was
like a tired old lady, tired of ev-

erything, even of pride, but with
the everlasting guts to keep her
chin up against all comers, no
matter how shabby and sad and
poor she might be. Well, I was
feeling a little like that myself,
after 10 years on the road. I could
use some rest.

* * *

I KNOCKED on the door; a good,
hard, honest knock. The light
moved and the door opened.

I knocked on the door; a good, hard, honest knock. The light moved and the door opened.

"Who is it?"

"Could I get a room?" I said.

and I spent some active moments playing tag with one of those slippery silk spreads that ought to be in jail for abandonment. But a good conscience is better than a shot of dope, and I was still dead to the world when some high-class breakfast smells woke me up with a twitching nose.

I THOUGHT back to my first sight of Tambay Plantation 25 years ago. I wasn't on my own at that time. I was with a carry show. Acrobatics, an animal turn, and a touch of parlor magic on the side. We pitched by the streamside at Tambay Bend, and when I sneaked out after the show and saw the old mansion, with all the lights going and the saddle horses hitched to the big trees, and heard the music and the soft, young southern voices, I got a yen for it that never died out. You wouldn't expect the proprietress of a traveling nosebag to be romantic. O.K. I'm as God and the roads have made me.

"Not if I can help it." Her face went quiet and secret. There were things back of the look that she didn't want to think about.

"Mind if I snoop around a little?"

"Go anywhere you like."

After breakfast she took her fly-rod and went down to Tambay Bend to get a mess of fish for dinner, leaving me with the two Gullahs. I've always modeled my life on the fella that made a big success minding his own business. What I mean to say, I never ask questions except, of course, when I want to find out something. Because what other way is there? I went to work on Ollie and Nollie.

"How long have you girls been here?"

"Us? We been livin' heah sence Mist' Clement Maurie's time."

"With Miss Judson?"

"Oh, no'm! Miss Jane Ann, she on'y been heah a little piece. She let us stay on cause we ain' got no otha place to res'. An' she gotta have sumbuddy."

"Hasn't she got any folks?"

"No'm. Her pa an' ma was killed in a accident. I don' reckon she had no otha kin. Her ma was a Maurie. That's how-come she heired Tambay."

Well, I looked the place over and located a sweet spot for my trade, between road and river, a high jut of land with nice trees. So I towed the trailer in and was ready for Miss Jane Ann when she came back.

(To Be Continued)

"What about it?" I said.

Instead of answering, she put up a hand and felt the woodwork back of my sign. Naturally, it hadn't had time to get wet. Nobody's fool, that gal.

"Do you get away with it often?" she asked.

"More often than you might think," I told her.

I guessed that maybe she didn't have entire confidence in me. So I put the spotlight on myself.

"Mom Baumer," I said. "Fat and 50; wet and tired."

She kind of hesitated. "There's only the north room furnished," she said. "It leaks."

"So does this sky," I said.

"I don't know," she said to herself. "Why do you pick on Tambay?" she asked.

"It's a long story," I said. "I'd do a lot better by it in the morning."

"I'm Jane Ann Judson," she said.

That north room would sure have been a risk for anyone in weak health. Pots and pans did their best to take care of the dribs and drabs. The bed was pretty clammy,

Hold Everything

Mind Your
Manners

Test your knowledge of correct social usage by answering the following questions, then checking against the authoritative answers below:

1. When a man arranges to meet a woman should he arrive at the appointed place a little ahead of time?

2. Does the fact that her appointment is with a man make it all right for a woman to be late to it?

3. Is it all right to be late to an appointment with a doctor or dentist if one apologizes?

4. Is it all right for a club member to make a habit of being late to meetings?

5. Is it especially important for one who is asking a favor to be on time for an appointment?

What would do it—

You carry pictures of your children in your handbag—

(a) Show them to everyone you meet?

(b) Show them only to friends you think will be interested in seeing them?

Answers
1. Yes.
2. No.
3. No.
4. No.
5. Yes.

Better "What Would You Do" solution—(b).

"I hope you'll pardon it, sir—it's a South American meat-eating plant!"

Cranium Crackers

Weather Blackout

Publication of certain weather reports has been stopped to block useful information from the enemy. That, however, is no reason you should not know the answers to these questions about the elements.

1. Does the sun's reaching its northernmost point mark the beginning of summer?

2. Explain the difference between a hurricane, tornado and typhoon.

3. What was Mark Twain's famous remark about the weather?

4. What did the weather have to do with the English defeat of the Spanish Armada?

5. In 32 degrees Fahrenheit the freezing point for alcohol, mercury, water or gasoline?

Stories in Stamps

Stamp Proves Extent Of German Inflation

ONE of the scars remaining in Germany after World War I was the period of wild inflation in

1922 and 1923 which skyrocketed the price of a sandwich to millions of marks.

The stamp above, issued in 1922 and overprinted in 1923, mutely testifies to the jump in prices. When first printed its value was 200 marks, high for any stamp, but before it was even used inflation had jumped its price to 200,000,000 marks.

To keep up with the demand for money, paper millions were printed in 137 printing plants. Besides the Reichsbank's printing shops—178 presses were kept working overtime, and they could not print enough bills. States, banks, towns all printed their own money.

At one time the official rate of exchange was 4,200,000,000 marks for an American dollar. A penny

would buy 42,000,000 marks. Money was actually so plentiful that the paper on which it was printed was worth more than the numerical value of the note.

Debts were paid with suitcases full of marks. A meal cost baskets full of marks. The inflation was finally stopped, however, by a loan from the U.S. which helped Germany regain its monetary balance.

Bermuda placed on sale a 7½-pence, green, blue and black for airmail use. It illustrates a long-tail bird, a species of seagull which visits Bermuda.

Golden Glove Boxers Go To Jefferson City**First Fights For Boys On Either Of The Boxing Teams**

Tonight Sedalia's Golden Gloves will step into a ring for the first time of 1942 and for the majority it will be the first time they have appeared in public in a boxing bout. The team numbering fourteen, journeyed to Jefferson City where they fight in St. Peter's auditorium starting at 8 o'clock.

Probably the most experienced boxer on the team is Frank Stroehuer, 19, bantamweight who has had several fights down in Texas, but as yet has plenty of "kinks" to iron out before the tournament. He meets Doyle Cardwell.

Tommy Sanders meets Bob Cochrane. Cochrane is considered the best among the Jefferson City team in the light weight class, but he is much like Stroehuer, in lacking experience.

R. G. Henley, who has had a fight or two and who is expected to turn into one of our top men meets Bob O'Dwyer in the light weight class.

Harry A. Cone and Johnny Vandefeltz will tangle in the light weight class.

Vinson Blankenship and Nick

Case will fight in the welter-weight division.

Donald Smith and Eddie Melton, meeting in the featherweight class, as are Paul Giesing and Wayne Cook.

Ralph Harrington fighting at middleweight meets David Hoehler.

Tommy Burkett will meet Edgar Urton while Richard Humphrey battles Tommy Farr.

Also making the trip are: Jimmy Woody, "Red" Cramer, Eddie Cook and Dean Murray. Murray will handle the boys in the ring.

Figures Huge Sum From The Fight Friday

Shoot At Record In The Louis And Baer Title Match

By SID FEDER

NEW YORK, Jan. 8.—(P)—The biggest pile of "fresh" ever collected under one roof in the history of boxing will be heaped in the middle of Madison Square Garden's ring tomorrow night, as going even though some of the game's outstanding stars may be with the armed forces.

"It would be foolish to do otherwise," commented house minority leader, Joseph Martin (R-Mass.), who played shortstop on a semi-pro team in his home town of North Attleboro years ago. "Morale must be maintained."

While contending that no exceptions should be made for baseball players capable of military service, the Republican leader said that professional teams could provide good competition, as well as relaxation for the fans, by using players in the upper and lower age brackets.

Promoter Mike Jacobs announced today that he is shooting at a new all-time indoor receipts record. He figures he stands a good chance of getting it if the last-day rush to the ticket counters report as usual.

This would mean that the 20,000 customers expected for what is listed as a 15-rounders would chip in to a jackpot to top the \$201,613 "take" the night Jimmy Maloney outpointed Jack Delaney in the same soup bowl back on February 18, 1927.

That's the sweetest tune the cash registers ever sang for an indoor show in the history of busting beaks.

With Jacobs giving up his entire profit, Louis tossing his whole 40 per cent into the bundle and Baer giving up 2½ per cent of his 15—in addition to risking health and safe-being against the bomber—it wouldn't be surprising if the sailor boys' kiddies collected \$10,000 or slightly more.

So far as the nose-flattening itself is concerned, Louis, making his last trip to the post before trading in his trunks for a soldier suit—and possibly his last outing for keeps—is high and hot for this one. This corner picks the bomber to give Buddy enough, and a little extra, before the bell sounds starting the fourth.

"But," he added, "I don't believe in draping the whole country in black. Certainly professional baseball should be continued during the war. It encourages sports, helps preserve morale, and provides outdoor relaxation for thousands."

"They may not play as good ball," said Rep. Walter C. Andrews (R-NY), a Princeton baseball player in his college days and later head coach of his alma mater's eleven. "But what difference does that make?"

"Professional baseball has a place in the country, even in time of war. And I think that the example set by two of the game's greatest players, Sergeant Greenberg and Bob Feller, is a good thing for the country."

Hank Greenberg, slugging Detroit outfielder, recently re-enlisted in the army after expiration of his year's training period, while Bob Feller, ace of the Cleveland mound staff, signed up for navy duty with the hope that he would be able "to pitch a few strikes for ole Sam."

Annual Party Held By Club

The Smithton Home Economic club held its annual party Wednesday beginning with a contributed one o'clock luncheon, at the home of Mrs. E. R. Knox. Approximately 50 members and guests were present to enjoy the hospitality of this beautiful home. Following the luncheon which was served in the recreation room in the basement, Mrs. W. E. Lamm, club friend chairman, asked each member to sit by the person they thought was their club friend this past year, the truth being revealed through the gifts which were distributed from the Christmas tree by Misses Ruth Evelyn Williams, Marian and Norma Demand.

The club presented their president, Mrs. J. J. Lamm with a nice gift in appreciation for her service and loyalty to the club for the past two years.

Names were drawn again for their club friend for the coming year. The ladies then adjourned to the living room where Miss Dorothy Bacon gave an interesting talk on aid in defense by having the proper diet and foods at home. The club collect was read. Miss Marian Demand rendered a piano solo, variations of "Joy to the World." All joined in singing Christmas carols.

Special guests present were,

Mrs. R. R. Lujin

Mr. and Mrs. J. R. Broughton, Mrs. D. A. Myers and children, Doris and Idaho, all of Hardin were guests of their daughter and sister, Mrs. George Griffin and family from Monday until Wednesday of this past week.

George Harris, Great Falls, Mont., who was called here by the death of his brother, John V. Harris, is spending several weeks here with his sisters, Misses Beulah and Amy Harris and other relatives.

Rev. and Mrs. E. J. Weiss and daughters, spent the past week with Mrs. Weiss' parents in Marion, Ohio.

Mr. and Mrs. William M. Jackson left Friday for Parsons, Kas., to reside. Mr. Jackson has em

ployment in a defense project there.

Mrs. F. A. Miss Marian Demand, Miss

Now Many Wear FALSE TEETH

With More Comfort
FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth firmly. To eat and talk in more comfort, just sprinkle little FASTEETH on your plates. No gumby gooey, pasty taste or feeling. Checks "plate odor," (denture breath). Get FASTEETH at any drug store.—Adv.

"DELIGHTED"
THEY SAY OF KRUGON

This herbal laxative capsule formula is a medicine carefully compounded from expensive ingredients in a manner to give the best results. You, too, will be pleasantly convinced of its mild, efficient and effective action as so many thousands of others have been.

Krugon is sold by McFarland and Robinson Drug Company, 104 West Main Street, this city, and by leading druggists.
